The 1st Global Medical Summit Presents

Innovations in Hip and Knee Orthopaedics
The Next Generation

March 1st - 3rd 2017
Limassol, Cyprus
Welcome Letter

Dear Colleagues and Friends,

On behalf of the Organizers Executive Committee, we are pleased to invite you to The 1st Global Summit of Hip and Knee Orthopaedics which will take place from March 1st - 3rd, 2017 in Limassol, Cyprus. The theme for this event is "Innovations in Hip and Knee Orthopaedics – The Next Generation". The Global Summit is hosted by Salus Medical Solutions with the support of their industry partners.

Salus Medical Solutions is an acclaimed “Center of Excellence” in specialist Minimally Invasive Surgery (MIS), providing access to leading international surgeons, their techniques and their technologies - bringing unprecedented medical standards to the Region – for the benefit of associate surgeons and their patients. Reflecting Salus’ commitment to Continued Medical Education (CME), innovation and best practice, the event will focus on exploring how the next generation of hip and knee orthopaedic treatments and biomedical advances improve patient outcomes and quality of life. During the Summit, we aim to prove ease of technique and product implementation where our leading surgeons shall share their experiences whilst also performing live surgeries, as a teaching mechanism which you may also participate in, by bringing your own patients to Cyprus.

Through the event, we aim to create a network of orthopedic surgeons who will ultimately embrace and employ these new technologies in their own country, through us organizing educational programs where CME may continue – tailored to specific market needs. The Summit will facilitate collaboration between leading experts in the field of hip and knee orthopaedics, international orthopaedic faculties, associations and societies, private and public hospital groups and health care ministries.

The Summit aims to present the next generation on hip and knee orthopaedic treatment options including patient-specific implants and instruments, (introducing fully disposable instrumentation sets), new technologies and techniques in total hip arthroplasty through MIS, regenerative orthopaedics and includes an update from industry with their latest innovations and research news.

We have planned a comprehensive program featuring internationally recognized experts and advocates in our field. We are excited about the diversity of our program and the culmination of our collaborative efforts. We look forward to your participation in this event.

Sincerely,

Co Chairmen
Dr Craig Loucks

Dr Robert Greenhow
About Us

Global Medical Summit
Salus Medical Solutions is proud to be hosting The 1st Global Summit of Hip and Knee Orthopaedics. Through the formation of the Global Medical Summit committee and the continued support of our industry partners, we aim to reflect the motivation of all the participating individuals and associations to promote the exchange of scientific knowledge and experience. During the Summit, we will investigate the prevention and both the conservative and surgical treatment of disease and injury, with particular emphasis on education and research.

Salus Medical Solutions is an internationally acclaimed “Center of Excellence” bringing together the finest surgeons to one European location, providing access to patients from all over the world to these talented and dedicated professionals. By offering tremendous MIS proficiency, professional excellence and ethical behavior, the Surgeons provide truly advanced surgical innovation, for the benefit of their patients and trainee associate surgeons.

For more information please visit: www.salusmedical.solutions

Our Mission
Our Mission is to present the next generation treatment options. Through our academic programs and clinical care initiatives we are dedicated to finding new ways to enhance clinical care, heighten academic and research synergies and shall endorse our achievements regionally and internationally.

Our Vision
Through the Global Summit, we intend to facilitate collaboration between leading international experts in the various specialist fields of medicine, international faculties, associations and societies, private and public hospital groups and health care ministries. We aim to continuously engage brilliant surgeons with vision - creating an elitist entity with a global reach, for the benefit of their patients and Region.
Organizers Executive Committee

Co Chairmen                                  Dr. Craig Loucks                        Dr. Robert Greenhow

Education and Science   Dr. Andreas Panayiotou   Dr. Craig Loucks
                         Dr. Dimitri Lyras

Congress     Mrs. Debbie Neocleous   Ms. Claire Makrides
               Mrs. Alma Suarez

Ethics       Dr. Dimitri Lyras

Our Hospital

The Mediterranean Hospital of Cyprus

Opening in July 2013, The Mediterranean Hospital of Cyprus is one of the largest private health care institutions in Cyprus and provides safe, affordable and exemplary medical services to local and international patients. The founder of the Hospital, Dr. Andreas Panayiotou, has deviated from implementing traditional operational practice and has successfully employed his own primary objectives.

The Mediterranean Hospital has succeeded in achieving recognition for its diversity and the specialist quality services it provides, fast becoming a leading specialized MIS Surgical Facility, locally and internationally.

The excellent infrastructure of the hospital, combined with significant continued investment in state of the art equipment, reflects the commendable adopted attitude of the founder for continuous improvement for the overall benefit of the patient.
The Summit

During the 3 day event, we have planned a comprehensive program for our attending surgeons, featuring internationally recognized experts and advocates in the specialist field of Orthopaedics. We are excited about the diversity of our program and the culmination of our collaborative efforts.

Keynote Speakers

Dr. Robert J. Greenhow   Co-Chairman
Dr. Greenhow is an Orthopedic Surgeon specializing in adult hip and knee reconstruction. In 2004 with Dr. Craig Loucks, his founding partner in Peak Orthopaedics and Spine in Colorado, they were first surgeons in the Denver area to perform Anterior Approach Total Hip Replacement and Dr. Greenhow has since performed over 2000 cases. He has also pioneered outpatient total joint replacement successfully since 2013 and serves as a proctor, lecturer and teacher of these techniques all over the world. Along with 3 other colleagues, Dr. Greenhow recently developed the MyKnee; Patient-Specific Cutting Guide System.

Dr. Craig Loucks   Co-Chairman
Dr. Loucks is a specialist Orthopedic Surgeon and founding partner in both Peak Orthopaedics and more recently Integrative Performance Institute. Patients benefit from his expertise in MIS Hip and Knee Replacement and complex joint revisions and reconstructions. In 2004 together with his partner, they were first surgeons in Denver to perform Anterior Approach Total Hip Replacement (AMIS). In the past, he has served as a consultant and teacher for hip and knee procedures for Zimmer and ConforMIS. More recently along with his partner Dr. Greenhow and 2 other colleagues, Dr. Loucks developed MyKnee; Patient-Specific Cutting Guide System.

Dr. Dimitris Lyras
Dr. Dimitris Lyras is a Trauma and Orthopaedic Surgeon specialized in Minimal Invasive Hip and Knee Replacement Surgery and has, over the years, developed a reputable and successful private practice in Athens. Dr Lyras successfully embraces Patient Specific Instruments, including MyKnee and other cutting edge technologies. Dr. Lyras has a special interest in the effects of the application of Platelet Rich Plasma (PRP) during the treatment of various conditions. This special interest has instigated, amongst other publications, his ground breaking experimental studies of the effect of PRP on Tendon Healing. Dr Lyras is Fellowship trained in Denver, Colorado, by the Minimal Invasive Hip and Knee Fellowship.

Dr. Sam Oussedik
Dr. Sam Oussedik is a Consultant Orthopaedic and Trauma Surgeon, practicing in London, who specializes in knee surgery for sports injuries, degenerative conditions and all forms of trauma surgery. He has gained highly specialized experience through his diverse training internationally, in all aspects of knee and lower limb surgery. Specifically focusing on the latest techniques for joint replacements and knee reconstruction following sports injuries. His special interest is on joint preservation through osteotomy and biological treatments together with the latest techniques in improving outcomes following knee replacement.
Scientific Program

Reflecting our commitment to Continued Medical Education, innovation and best practice, the schedule includes live surgery training, presentations and discussions. We will focus on hands on training with leading surgeons who shall share their experiences whilst performing live surgeries, as a teaching mechanism. Delegates participating in the training modules shall enjoy exposure to next generation biomedical advances and techniques through our leading proctors.

Learning Objectives

Upon completion of this international summit, participants will be able to:

- Review current state of the art advances in Minimally Invasive Orthopaedic Surgery
- Learn about Knee Replacement with MyKnee© Design rationale, results and technique
- Study the AMIS approach in THR
- Learn about interdisciplinary implementation of innovations in Orthopaedics
- Identify Knee and Hip Reconstruction procedures
- Learn about Optimizing TKA
- Discuss Hot topics in Regenerative Orthopaedics

Highlighted Sessions Include:

- Innovation, Patient Specific Instrumentation
- The Anterior Approach to the Hip - Out patient Hip Replacements
- Partial Knee replacement (Arthrosurface, Full UNI, Bi-compartment replacement)
- Non-Arthroplasty Surgical Treatments for Osteoarthritis
- Cartilage transplant in Knee Reconstruction procedures
- New Generation of Orthopaedic Biomaterials
- Update in Regenerative Orthopaedics, including PRP, Stem Cells and Biological interventions (Osteonomy)
- Better Outcome in MIS Patients
### Who Should Attend

- Orthopaedic Surgeons
- Hospital Groups
- Orthopaedic Faculties, Societies and Associations
- Medical Device Distributors and Manufacturers

About Cyprus

Known as Aphrodite's birthplace, Cyprus is the Mediterranean island located at the crossroads of three continents, where East meets West. The island boasts a wealth of history and heritage, whilst also offering inviting beaches, breathtaking mountain trails and luxurious hotels. The island also enjoys a prosperous service-based economy, where English is widely spoken.

Cyprus is easily accessible as it is linked with numerous direct and connecting flights with all the main European cities, Middle East, Africa and Asian countries. The legal ports of entry into the Republic of Cyprus are the airports of Larnaca and Paphos. We have compiled all the information you may need in order to familiarize yourselves with Cyprus and to successfully plan your visit:

Travelling Documents
EU countries, Commonwealth countries and the USA do NOT need a visa. Schengen Visa holders are allowed to enter the Republic of Cyprus. Any Invitation Letters and Visa Request documentation is provided by us upon request.

Languages
Greek and Turkish are the main languages spoken however, English is also widely spoken.

Currency / Banking Hours / Credit Cards
The currency of the Republic of Cyprus is the Euro (€). Banking hours for the public: Monday - Friday 08:00 - 13:30. There are Automated Teller Machines (ATMs) outside most branches of banks. Hotels, large shops and restaurants normally accept credit cards and traveler’s cheques. Banknotes of major foreign currencies are also acceptable.

Electric Current – Voltage
The supply in Cyprus is 240 volts, a.c. 50Hz. Sockets are usually 13 amp, square pin in most buildings. Many hotels provide adaptors upon request from the reception.

Weather and Climate
Cyprus enjoys an intense Mediterranean climate with quite mild winters and predictable sunshine almost every day. Cyprus is also the ideal destination to endorse recuperation for any patient with midwinter temperatures ranging from 27° C to about 14° C (between 81° F – 58° F) in the evening on the coast.
Our Venue

**The Four Seasons Hotel, Limmasol, Cyprus**

It is a 56km (40’ minute) drive from Larnaca International Airport to the Conference Venue in Limassol. The Four Seasons offers excellent conference facilities for up to 660 delegates in the Ballroom. Many international conferences and executive meetings have been staged with great success at the hotel which provides dedicated personnel for each event, demonstrating unparalleled attention to detail and their commitment to excellence.

Accommodation

Being a favourite holiday destination, Cyprus boasts to being adorned with several exquisite Hotels offering impeccable service. We have selected two such hotels which we believe possess the quality and ultimate caliber of service our delegates, patients and their companions expect and deserve.

**Four Seasons Hotel**

The prestigious independently owned and operated Four Seasons Hotel lies on a sandy beach east of Limassol approximately midway between the airports of Larnaca and Paphos and is only a few minutes drive from the city center.

For over 20 years, the Four Seasons has maintained its leading position in the luxury hospitality sector of Cyprus. the pinnacle of extravagance and style, combining impeccable facilities with world class hospitality and service.

**Mediterranean Hotel**

A superior 4 Star luxury hotel situated on one of the most beautiful sandy beaches of Limassol, The Mediterranean hotel’s unique location provides all the advantages, boasting some of the best views of the island’s southern coastline. Recently renovated extensively, the Mediterranean Beach Hotel welcomes guests to a warm and inspiring environment of aesthetic luxury and comfort.

Travel and Excursions

Our partners, Top Kinisis Travel Public Ltd was established in 1987 and is today one of the most prominent Tourism Organizations in Cyprus, with over 60 employees dedicated to ensuring all your needs are met. By owning an advanced online engine where one can search, get instant availability, book and pay online for flights and any excursions during your stay, in Cyprus.
Delegates

Do you desire to be amongst the first to benefit from being trained by world leading surgeons – the ones who are instrumental in the progress and development of orthopaedics?

Do you aspire to offer your patients the latest technology available, for example made to measure surgical devices rather than off the shelf products?

Do you prefer your patients to recuperate with less pain and much sooner rather than later?

Do you want to help your hospital save on money and resources?

The Summit will present the next generation of hip and knee orthopaedic treatment options. We will focus on exploring the benefits offered by pioneering hip and knee orthopaedic hardware, instrumentation and innovation in biomedical advances, which are not yet available in your country.

You do not need to travel to the United States to have direct access to our leading surgeons and their cutting edge technology. During this high profile event you will meet these pioneers and they shall introduce surgical devices, which they personally developed.

During the Summit, we will prove ease of technique and product implementation where our proctors shall share their experiences whilst performing live surgeries, as a teaching mechanism - which you may also participate in.

By bringing your own patients to Cyprus you will be eligible to attend the operating theatre and experience these new technologies first hand – with our leading surgeons at your side.

You will have the opportunity to study their precision in MIS, learn about advances in regenerative orthopaedics and experience the latest cutting-edge technology – in particular Patient Specific Products.
Your Patients

How can you provide access to your patients to the latest cutting edge technology, which is not yet available in your country?

How can you obtain surgical devices especially designed for your patient rather than “off the shelf” products?

How can you ensure your patients suffer less pain, less blood loss and are back to normal post operatively a lot sooner rather than later?

Your patient has chosen you because you are an experienced and knowledgeable specialist who possesses high standards of professional excellence and ethical behaviour. Your patients choice is based on reputation, unsurpassed surgical performance, education and credentials and also because you are committed to providing quality patient care. It is with the exact same screening process that we at Salus have chosen our Specialist Surgeons. When it comes to choosing our surgeons, we at Salus are meticulous at ensuring we work with true experts.

With over a decade of experience we aspire to offer our international patients a positive life changing experience, quality service and uncompromised healthcare, combined with cutting edge technology and surgical excellence.

The field of orthopaedics is constantly researching new techniques to help make joint replacement surgery less painful and to help patients recover more quickly. Through Salus your patient has access to our leading international surgeons, their techniques and their technologies - bringing unprecedented medical standards to the region. Techniques and technologies we hope you will ultimately embrace and employ back home.

As a surgeon, you naturally want your patients to have access to the best treatment options - By bringing your patients to this event, that is what you will be providing. You will accompany your patient to the operating theatre and together as a team, we shall provide your patient with quality service and uncompromised healthcare, combined with cutting edge technology. We will offer a personalized service, coordinating all necessary arrangements by taking every detail into account - thereby ensuring their overall experience is as comfortable as possible.

Your patients can undergo surgery with the reassurance of your presence along with our world renowned leading surgeons - whilst still saving over 70% of the normal costs involved! The benefits by participating in this event are phenomenal – for all involved.
Registration Page

Reap the benefits of EARLY BIRD REGISTRATION.

If you register before December 31st 2016 - you will save 30%

<table>
<thead>
<tr>
<th>Registration fee:</th>
<th>€ 2,000.00</th>
</tr>
</thead>
<tbody>
<tr>
<td>Early Bird Registration until December 31st :</td>
<td>€ 1,400.00</td>
</tr>
</tbody>
</table>

*Registration includes access to all sessions of the conference and exhibition area, workshops, lunch for the 3 days duration of the event and certificate of attendance.

**Discounts for participants bringing patients for surgery:**

| One patient : | 50% Discount on Registration Fee. Discounted fee will be € 1,000.00 |
| Two patients : | FREE Registration. |
| Three patients : | FREE Registration PLUS flights and accommodation for the 3 days duration of the event. |

As a surgeon, you naturally want your patients to have access to the best treatment options - By bringing your patients to this event, that is what you will be providing.

By bringing your own patients to Cyprus you will be eligible to attend the operating theatre and experience these new technologies first hand - with our leading surgeons at your side.
**Sponsors & Exhibitors**

Be the first to bring change by being progressive and offering the latest in cutting edge technology, which is not yet available in your country. Be the first to offer made to measure surgical devices rather than off the shelf products. Be the first to claim your patients are back to normal post operatively sooner rather than later, saving hospitals money and resources.

We will focus on exploring the benefits offered by the next generation of hip and knee orthopaedic hardware, instrumentation and innovation in biomedical advances, which are not yet distributed in your country. Imagine a 3D-printed knee, which is designed specifically to fit a particular patient, delivered directly to the hospital and is sent immediately to the operating theatre. The hospital, surgeon and the patient will experience better outcomes and you will be the first in your country to benefit by offering this unique technology.

This high profile event will include Training Modules - Where you and your surgeons will have direct access to our leading proctors, who are pioneers in the Medical Device Industry and will prove ease of technique and product implementation. They shall share their experiences whilst performing live surgeries, as a teaching mechanism and your sponsored delegates will have the opportunity to familiarize themselves with product by bringing their own patients and subsequently offering them these technologies.

During the three day event we will be bringing together over 100 delegates, with whom we aim to create a network of orthopedic surgeons who will ultimately embrace and employ these new technologies in their own country. By organizing educational programs where CME may continue, tailored to specific market needs we intend to facilitate collaboration between leading experts in the field of hip and knee orthopaedics, international orthopaedic faculties, associations and societies, private and public hospital groups and health care ministries - creating an elitist entity with a global reach, for the benefit of our patients and our Region.

Our vision is to continuously engage brilliant businesses and surgeons with vision - We trust you recognize this invitation as a tremendous opportunity and you can anticipate the real benefits which can be achieved by sponsoring this event.

Sponsorship Opportunities

Gold Sponsor 50,000 EURO
Exclusive to only one sponsor

Pre Event:
- Company logo and company info will be included in the event website (sponsors page) and will be hyperlinked to your website.
- Sponsor will be mentioned in relevant press releases leading to the event.
- Email template will be provided to you to send to your prospects and customers inviting them to Join the conference at a discounted rate (30% off regular conference passes).
- Sponsor logo and company info (up to 200 words) and contact details in the event conference book.
- Acknowledgement by conference moderator at the opening ceremony.

At Event:
- 30 minute plenary session keynote by the sponsor’s representative - needs to be educational and valuable to the general theme of the conference.
- 10 complimentary conference registrations, monetary value of 20,000 Euros.
- Additional tickets at a 30% discounted rate.
- 12 sqm Exhibition space (Prime Location), monetary value 12,000 Euros (Equivalent to 2 Inland Booths)
- 2 full-page advertisements in the Final Programme

The Headline Sponsor is automatically the host of the Cocktail Reception
The Cocktail Reception is the highlight of the conference, and is a superb networking opportunity for all speakers, delegates, sponsors and invited guests. Guests will enjoy quality beverages, superb entertainment and music. This will be held on the prior evening of day1 conference from 7-9pm.

Post Event:
- Sponsor participation credit in post-event promotions.
- Sponsor recognition in post event survey.
- Sponsor recognition in any post-event published materials
- Sponsor recognition on website for one-year.
Silver Sponsor

30,000 EURO
Exclusive to only three sponsors

Pre Event:
- Company logo and company info will be included in the event website (sponsors page) and will be hyperlinked to your website.
- Sponsor will be mentioned in relevant press releases leading to the event.
- Email template will be provided to you to send to your prospects and customers inviting them to join the conference at a discounted rate (30% off regular conference passes).

At Event:
- 30 minute plenary session keynote by the sponsors’ representative - needs to be educational and valuable to the general theme of the conference.
- 5 complimentary conference registrations, monetary value of 10,000 Euros.
- Additional tickets at a 30% discounted rate.
- 6 sqm Exhibition space, monetary value 6,000 Euros (Equivalent to 1 Inland Booth - assigned by the organiser)
- Sponsor logo and company info (up to 200 words) and contact details in the event conference book.
- Acknowledgement by conference moderator at the opening ceremony.

The Silver Sponsors are automatically the host of all luncheons
This sponsorship offers high-level exposure during the buffet lunches that are provided for delegates across the 3-day conference. The first Silver Sponsor will host day 1 lunch, the second will host day 2 lunch and the third will host day 3 lunch.

Post Event:
- Sponsor participation credit in post-event promotions.
- Sponsor recognition in post event survey.
- Sponsor recognition in any post-event published materials.
- Sponsor recognition on website for one-year.
Bronze Sponsor

10,000 EURO

Pre Event:
- Company logo and company info will be included in the event website (sponsors page) and will be hyperlinked to your website.
- Sponsor will be mentioned in relevant press releases leading to the event.
- Email template will be provided to you to send to your prospects and customers inviting them to join the conference at a discounted rate (30% off regular conference passes).

At Event:
- 15 minute presentation by the sponsors representative – needs to be educational and valuable to the general theme of the conference.
- 2 complimentary conference registrations, monetary value of 4,000 Euros.
- Additional Conference registrations, at a 30% discounted rate.
- Exhibition space, monetary value 3,000 Euros (Equivalent to 1 Island Booth – assigned by the organiser).
- Sponsor logo and company info (up to 200 words) and contact details in the event conference book.

Post Event:
- Sponsor participation credit in post-event promotions.
- Sponsor recognition in post event survey.
- Sponsor recognition in any post-event published materials.
- Sponsor recognition on website for one-year.

Special sponsorship requests can be discussed on an individual basis
